

Did You Have COVID? Donate Your Blood & Help Others!

What is the purpose of this study?

To develop a treatment for COVID-19.

What does the study involve?

1. You will answer some questions online to see if you are a good fit for this study.
2. If you are a good fit, we will call you to set up a time to get a small sample of your blood. You can give blood at a lab site, or we can come to your home if you like.
3. Next, you will have the option of donating blood at a local blood bank.

Who can participate in the study?

People who have recovered from COVID-19 and are:

- over age 18
- weigh at least 110 lbs
- in general good health.
